Northeast Early Childhood Council

The Northeast Early Childhood Council (NECC) is a local, regional group of community members from Killingly, Plainfield, Putnam, and Sterling. We are an independent, open group working together to ensure that all children, birth through age eight, in Killingly, Plainfield, Putnam & Sterling are healthy safe and successful learners.

The NECC takes into account all areas that could affect young children. As a result, the following Workgroups have been formed.

- ✓ Early Care & Education
- ✓ School Readiness
- ✓ Mental Health
- ✓ Physical Health
- ✓ Safety

The NECC meet several times per year and is open to all community members who wish to participate on any level.

DID YOU KNOW...?

- ❖ The brain develops 90% of its capacity in the first five years of life.
- ❖ What an infant or toddler does during the course of a day influences lifelong learning patterns.
- ❖ Oral and dental health from birth impacts overall health and learning.
- ❖ The number and variety of spoken words that a child has by age 5 influences his/her ability to be a successful reader.
- ❖ Sharing books and reading aloud with your child from birth allows for special quiet time together and supports the joy of reading.
- ❖ High quality preschool or childcare is positively related to children's success in school. Poor quality can have negative effects.

5 STEPS TO FINDING A GOOD CHILDCARE OR PRESCHOOL

1. **START EARLY:** Finding the right childcare option can take some time.
2. **MAKE A CALL:** Call your Family Resource Center or call 211 Infoline and ask:
 - ✓ What are the licensing requirements in my area? Remember that licensed programs meet basic regulations required by law.
 - ✓ What types of programs are available?
 - ✓ How can I get information about complaints and licensing violations?
 - ✓ Is there any childcare financial assistance?
3. **VISIT, ASK QUESTIONS & TAKE THE TIME TO OBSERVE.**
 - ✓ How many children are there for each adult? One adult to 3 or 4 infants and toddlers; one adult to 7 or 8 preschool aged is best.
 - ✓ How many children are in a group? In a center, group size is 8 or less for infants and toddlers, or 17 in a preschool program.
 - ✓ Ask about caregivers' training and education.
 - ✓ Ask how long the caregivers have been at that center or providing care in their homes.
 - ✓ Find out if the provider is accredited by a national organization (such as NAEYC). Accredited programs meet higher standards of quality.
4. **MAKE A CHOICE.** Think about what you saw at each visit and make the best choice for your child and your family.
5. **STAY INVOLVED.** Meet with caregivers regularly, visit your child at childcare and join in special events. www.ChildCareAware.org

What to look for and ask when observing an early childhood program

Choose an early childhood program where the teachers consistently:

- ❖ Use a gentle tone of voice.
- ❖ Talk in a warm and friendly way.
- ❖ Laugh with the children.
- ❖ Show affection to the children.
- ❖ Respond to children's needs.
- ❖ Bend down to speak to children at eye level.
- ❖ Provide individual attention to children.
- ❖ Help children learn to get along with others.
- ❖ Talk with parents about their children.
- ❖ Refrain from using a harsh tone of voice or using put-downs.
- ❖ Understand child growth and development.
- ❖ Provide exciting and engaging learning activities.
- ❖ In preschool programs, use the CT Preschool Curriculum Framework to plan learning experiences.

To learn other signs of quality early childcare programs, visit www.rightchoiceforkids.org

Enroll children in a preschool, Head Start, or similar community program, which will provide an opportunity to be with other kids and make new friends. Children can also learn academic basics as well as how to make decisions and cope with problems.

Parents are their children's first and most important teacher

BRING OUT THE BEST IN YOUR CHILDREN BY NOTICING POSITIVE BEHAVIOR:

- ✓ Comment on your child's positive behavior.
- ✓ Notice effort and improvement.
- ✓ Appreciate your child's contributions even if small.
- ✓ Express confidence in your child.
- ✓ Express delight in your child often.

WHY DO PEOPLE NEED HELP WITH PARENTING? DOESN'T IT COME NATURALLY?

HAVING A CHILD CHANGES OUR LIVES

DRAMATICALLY. Most parents want to do a good job yet most of us are not always sure how. We don't all have the support we need. Sometimes as parents we feel isolated and frustrated about our abilities. Sometimes we want to talk about our daily lives with someone who understands.

PARENTING IS THE MOST IMPORTANT, CHALLENGING, AND REWARDING JOB WE WILL EVER HAVE. All parents can learn positive skills and better ways to be with children.

MOST PARENTS FIND IT VERY HELPFUL TO JOIN A GROUP OR CLASS OR MEET WITH HOME VISITORS.

Most parents who receive help say that it improves life with their children. Most parents who get support would recommend that others do the same. Contact a Family Resource Center to find out what it offers to support you and your child.

MENTAL HEALTH

Every person, child or adult, needs to be emotionally and mentally well in order to live a happy life. Living with mental and emotional problems, including addictions, takes a hard toll on entire families. When families get help for behavioral and mental health issues, the lives of everyone in the family can be transformed. Attitudes change from despair to hope.

The brief directory below has been put together with the goal that families can get help by just making a call or two. Many of the agencies listed provide emergency evening and weekend numbers. If you think that you or someone you love might need help, call these experts. Their agencies exist to serve our needs.

Please refer to the Transit section for help with transportation. Husky users may use the phone number on the back of their card.

MENTAL HEALTH & BEHAVIORAL/SUBSTANCE ABUSE

Basic Behavioral Screening for Ages 0-5 Using the Ages & Stages Questionnaire

Killingly Family Resource Center..... (860)779-6770
