Sally Sherman, Principal

Emily Caviggia, Principal

Dear Families,

Remember about a month ago when we all commented on how warm it was for late fall?! With the temperatures feeling like real winter again, I wanted to share out our most updated guidance on outdoor learning/play and weather. Attached you will find the "Child Care Weather Watch" guide we use to make decisions about inside or outside motor play. Please know that we value the benefits of outdoor learning for both children's health and development, and when safe, will opt to go out. Within the yellow caution zone, we make sure all children are dressed properly for the weather (hats, gloves, and mittens (snowsuits and boots when needed). Outdoor time can be shortened and might just be a brisk walk outside. We look forward to being outside again during light rain once our outdoor tents come back in early spring.

Speaking of weather....enjoy the snow!

Sally Sherman Principal, Goodyear Early Childhood Center

Understand the Weather

- Wind-Chill
- 30° is chilly and generally uncomfortable
 - 15° to 30° is cold
- 0° to 15° is very cold
- with significant risk of -20° to 0° is bitter cold frostbite
- cold and frostbite is likely -20° to -60° is extreme
- -60° is frigid and exposed skin will freeze in 1

Heat Index

- 80° or below is considered comfortable
 - 90° beginning to feel uncomfortable
- 100° uncomfortable and may be hazardous
 - 110° considered

All temperatures are in degrees Fahrenheit dangerous
