Dear Incoming Killingly Student:

Our Fall coaches are looking to contact you to share summer workout information as well as start of fall season information. Our usual way of gathering this information is by visiting grade 8 students in June, with the current pandemic, that was not possible. That being said, if you are interested in playing a fall sport, please e-mail the appropriate head coach right away so they have your name and contact information. Please remember, high school is a great time to try something new even if you've never played before!!
